CONSULTING

ERP Readiness Assessment

We provide expert ERP readiness assessments designed for mission-driven organizations. ERP transformations are complex and high-stakes. Synexis helps you minimize risk, build leadership alignment, and make informed, strategic decisions.
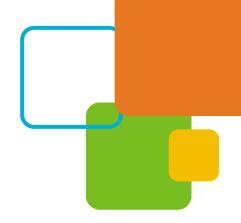

Why It Matters

- Poor planning causes 50–70% of ERP failures
- Lack of stakeholder alignment increases project risk
- Misaligned goals and disconnected processes slow adoption and raise costs

Our Solution

A focused, expert-led engagement that defines your ERP vision, documents requirements, aligns your team, and lays the foundation for a successful transformation.

Timeline & Value

- 8-12 weeks
- Cost-effective, expert-led engagement
- Accelerated path to value and faster decision-making
- Aligns ERP strategy to business objectives
- Identifies actionable pre-implementation activities
- Reduces risks, unexpected costs, and rework
- Assesses data migration effort and readiness
- Boosts adoption and change impact
- Provides visibility into overall program budget
- Increases the rate of implementation success

Why Synexis?

✅ **Industry Expertise**
Deep knowledge of compliance, budget, and governance challenges in mission-driven organizations.

✅ **Unbiased Guidance**
We bring a vendor-neutral perspective to align your team, clarify goals, and prepare for ERP success.

✅ **Leadership Alignment**
We coach executive teams to clarify vision, build buy-in, and establish strong governance.

✅ **Roadmaps with Impact**
Data-driven, actionable plans that tie technology to strategic outcomes.

✅ **Practical, Risk-Aware Planning**
Realistic roadmaps based on capacity, constraints, and change readiness.

Proven Approach
